

# Dental Care Provider Agreement

The objective of the Del Corazon Dental Clinic is to provide the highest quality dental care possible to the underserved population of El Catey and surrounding communities while representing Jesus Christ.

The Del Corazon Dental Clinic is a teaching facility. When dental students are present, the dental care provider will participate in active teaching with direct supervision of the student during all procedures, never leaving the student unsupervised.

The patients pay for services provided by the Del Corazon Dental Clinic. The purpose of this small fee is to encourage responsibility, discourage dependence and entitlement, and cover some expenses.

Please confirm your intent to be bound by the above mentioned terms.

I have read and understand the above information. By selecting "I accept" you are entering into a binding contract/agreement with Del Corazon.

- I accept
- I decline
