

Pastor - Church Plant – Dominican Republic

Del Corazón de Jesúcristo reaches out to share the gospel through medicine education and sports in the rural community of El Catey, Sanchez de Samaná, Dominican Republic.

Del Corazón de Jesúcristo was established in El Catey, Sanchez de Samana, Dominican Republic in 2003. Del Corazón de Jesúcristo has a 7 acre campus with a medical and dental clinic, classrooms, large pavilion, baseball field and sports facilities that provides an ideal ministry location. The ministry has grown and the door is wide open with tremendous opportunities and potential.

El Catey is a small, rural community with a few small churches. The people are very religious, but there seems to be a lack of understanding for a personal relationship with Jesus. There is a great need for someone with a heart for the Dominican people who has the call and gift for verse by verse Bible teaching and discipleship for the local people. We are praying for the right person who can catch the vision and use their gifts to lay up treasure in heaven. While that person would be independent, we will provide strong support and work together, strengthening and encouraging each other. Del Corazón de Jesúcristo will provide the facility and assistance as needed.

The church planter would:

- Be an independent ministry, working along side but not for Del Corazón de Jesúcristo.
- Be accountable to a sending church.
- Raise financial support.
- Be able to communicate and teach in Spanish.

The church planter may:

- Identify with a particular need in the Del Corazón de Jesúcristo ministry that matches their gift and engage in it. These may include, but are not limited to, coaching baseball or other sports, teaching English, administration, mechanical and/or agricultural maintenance.
- Initially receive assistance with on campus housing, but would be encouraged to live off campus after settling in.
